

Water-Conserving Plumbing Fixtures & CO Detector Advisory

Water-Conserving Plumbing Fixtures and Carbon Monoxide Detector Advisory — synthetic template modeled on the CAR WCMD

Prepared for demonstration. SYNTHETIC DEMO DOCUMENT — fictional data for demonstration only. Not an official California Association of Realtors form.

Property address: 123 Main St, Pasadena, CA 91101
APN (Assessor's Parcel Number): 5842-018-024
Document date: 2026-09-15
Seller: Jane Seller
Year built: 1968

Section 1 — Water-conserving plumbing fixtures

The seller confirms, for the fixtures listed below, whether they meet the water-conservation standards described in the applicable state plumbing and efficiency provisions. Mark each line and initial this page.

- ☒ Water closets (toilets) meet standard
- ☒ Showerheads meet standard
- ☒ Kitchen faucet meets standard
- ☒ Lavatory faucets meet standard
- ☒ Urinals meet standard (if any)
- ☐ Exceptions / replacements documented

Section 2 — Carbon monoxide alarms

The seller states whether carbon monoxide alarms are installed where the statute requires them, are operational at the time of this disclosure, and have been tested. Smoke alarms are addressed in the transfer disclosure statement.

- ☒ CO alarms installed where required
- ☒ CO alarms operational / tested
- ☒ Smoke alarms present and operational
- ☒ Alarm batteries / power checked

Section 3 — Other local disclosures

Possession: owner occupied at listing; no tenants. Private sewer lateral: status per city program records. Other local requirements are handled through the city's transfer checklist at closing.
