

Water-Conserving Plumbing Fixtures & CO Detector Advisory

Water-Conserving Plumbing Fixtures and Carbon Monoxide Detector Advisory — synthetic template modeled on the CAR WCMD

SYNTHETIC TEMPLATE — field structure for demo purposes only. Not an official California Association of Realtors form.

Property address: _____

APN (Assessor's Parcel Number): _____ Seller: _____

Document date: _____ Year built: 1968

Section 1 — Water-conserving plumbing fixtures

The seller confirms, for the fixtures listed below, whether they meet the water-conservation standards described in the applicable state plumbing and efficiency provisions. Mark each line and initial this page.

- | | |
|--|---|
| ☐ Water closets (toilets) meet standard | ☐ Lavatory faucets meet standard |
| ☐ Showerheads meet standard | ☐ Urinals meet standard (if any) |
| ☐ Kitchen faucet meets standard | ☐ Exceptions / replacements documented |

Section 2 — Carbon monoxide alarms

The seller states whether carbon monoxide alarms are installed where the statute requires them, are operational at the time of this disclosure, and have been tested. Smoke alarms are addressed in the transfer disclosure statement.

- | | |
|---|--|
| ☐ CO alarms installed where required | ☐ CO alarms operational / tested |
| ☐ Smoke alarms present and operational | ☐ Alarm batteries / power checked |

Section 3 — Other local disclosures

Possession: owner occupied at listing; no tenants. Private sewer lateral: status per city program records. Other local requirements are handled through the city's transfer checklist at closing.
